

Stone Seed Group Corn Individual Plot Yield Report John McManus

Cooperator John McManus **Plot Code:** C9CAB1

City Taylor Ridge
County Rock Island
State IL

Sales Person C. Blackert
Zip Code Latitude: 41.3983
Zip Code Longitude: 90.7402

Feet Left:
Feet Right:

Plot Type	Strip Plot	Planted	5/5/2009	Soil Texture	Fine
Row Length (ft)	995	Population	32.5	Soil OM	Medium
Row Width (in)	30	Harvested	10/29/2009	Soil pH	Medium
Row Count	6	Tillage	Min-Till	Soil Fertility	
Prev. Crop	Beans	Irrigated	Dryland Wet	Drainage	Moderate

Fertility Elements Added:					Herbicide: Degree Xtra/Balance Pro
N: 200	P: 70	K: 50	S:	Zn:	Insecticide:
					Fungicide:

Brand	Product	Trait	Yield	Rank	H2O	Pop.	SK%	RT%	TWT	Gross \$\$	Rank

Averages			221.7		25.4				54.7	672.05	

Average yield for this plot: 221.7 Bu/A High yield for this plot: 242.2 Bu/A

Assumed Selling Price per unit: 3.5 / BU Assumed Drying Cost: .045

Comments:

Planted 48 rows. 8T339 around field & E side

Individual results will vary. Results obtained are not an indicator or results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate all data from multiple locations and years whenever possible.

Always Read and Follow Label Directions for All Products

The agronomic ratings stated in the product agronomic charts were developed from Stone Seed Group internally conducted trials, which utilize commonly accepted methodology. These ratings can be used for comparative purposes between established and newly released products. They may not reflect total comparative performance. Actual performance may vary based on a number of factors, including without limiting the prevalence of the disease-causing organism or insect pest and environmental conditions. Product choices should be based on all performance information and not on pest reaction alone.

Before opening a bag of seed, be sure to read and understand the stewardship requirements, **including applicable refuge requirements for insect resistance management**, for the biotechnology traits expressed in the seed as set forth in the Monsanto Technology Agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with those stewardship requirements.

IMPORTANT: The following information is current as of April 17, 2007: YieldGard Plus, YieldGard Rootworm with Roundup Ready Corn 2 and YieldGard Corn Borer with Roundup Ready Corn 2 are grandfathered for import and use in processed feed in the E.U. YieldGard Plus with Roundup Ready Corn 2, YieldGard VT Rootworm/RR2 and YieldGard VT Triple are neither approved nor grandfathered and there is zero tolerance for these traits in processed feed imported in the E.U. Growers of all products bearing the Market Choices mark must talk to their grain handler to confirm the handler's buying position for grain from these products. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted.

Roundup Ready® crops contain genes that confer tolerance to glyphosate, the active ingredient in Roundup® agricultural herbicides. Roundup® agricultural herbicides will kill crops that are not tolerant to glyphosate. Asgrow® and the A Design, Bullet®, EasyFILL™, INTRRO®, Lariat®, Powerful Science. Powerful Seed.™, Processor Preferred®, Residue Proven®, Respect the RefugeSM, Roundup®, Roundup Ready®, Roundup Rewards®, Seed To Feed®, SilageProven™, Vistive™, We Breed Better Beans™, YieldGard®, YieldGard VT and Design™, YieldGard VT Rootworm/RR2™, YieldGard VT Triple™ and YieldMaker™ are trademarks of Monsanto Technology LLC. DEKALB®, DEKALB® and the Winged Ear Design, and Strong Roots. Strong Yields.® are registered trademarks of DeKalb Genetics Corporation. Poncho® is a registered trademark of Bayer AG.
