Average yield for this plot: 210.2 Bu/A High yield for this plot: 227.6 Bu/A

Assumed Selling Price per unit: 4 / BU Assumed Drying Cost: .045

Comments:

Water Stood on standing plot in spring for over 7 days. June 23rd Hail Damage over 30%. In 3rd wk of July 70 MPH wind hit plot. Ike dumped 6+ inches of rain in a 12 hr. time period.

Individual results will vary. Results obtained are not an indicator or results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate all data from multiple locations and years whenever possible.

Always Read and Follow Label Directions for All Products

The agronomic ratings stated in the product agronomic charts were developed from Stone Seed Group internally conducted trials, which utilize commonly accepted methodology. These ratings can be used for comparative purposes between established and newly released products. They may not reflect total comparative performance. Actual performance may vary based on a number of factors, including without limiting the prevalence of the disease-causing organism or insect pest and environmental conditions. Product choices should be based on all performance information and not on pest reaction alone.

Before opening a bag of seed, be sure to read and understand the stewardship requirements, **including applicable refuge requirements for insect resistance management**, for the biotechnology traits expressed in the seed as set forth in the Monsanto Technology Agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with those stewardship requirements.

Market Choices

Grain harvested from products that bear this mark is fully approved for food and feed use in the United States and Japan, but is not approved in the European Union. You must find a market for this crop that will not ship this grain or its processed products to Europe. Appropriate markets for this grain include: domestic feed use or grain handlers that specifically agree to accept this grain and handle it appropriately. For more information on your grain market options, go to the American Seed Trade Association's website at www.amseed.org or call your seed supplier.

MARKET CHOICES® is a registered certification mark used under license from ASTA.

Know Before You Grow®, an information service provided by National Corn Growers Association at www.ncga.com.

Growers should refer to Monsanto's Technology Use Guide for information on crop stewardship regarding the potential movement of pollen to neighboring crops. ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Know Before You Grow® is a service mark of National Corn Growers Association. For more information call 1-866-SELL CORN.

IMPORTANT: The following information is current as of April 17, 2007: YieldGard Plus, YieldGard Rootworm with Roundup Ready Corn 2 and YieldGard Corn Borer with Roundup Ready Corn 2 are grandfathered for import and use in processed feed in the E.U. YieldGard Plus with Roundup Ready Corn 2, YieldGard VT Rootworm/RR2 and YieldGard VT Triple are neither approved nor grandfathered and there is zero tolerance for these traits in processed feed imported in the E.U. Growers of all products bearing the Market Choices mark must talk to their grain handler to confirm the handler's buying position for grain from these products. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted.

Roundup Ready® crops contain genes that confer tolerance to glyphosate, the active ingredient in Roundup® agricultural herbicides. Roundup® agricultural herbicides will kill crops that are not tolerant to glyphosate. Asgrow® and the A Design, Bullet®, EasyFILL™, INTRRO®, Lariat®, Powerful Science. Powerful Seed.™, Processor Preferred®, Residue Proven®, Respect the RefugeSM, Roundup®, Roundup Ready®, Roundup Rewards®, Seed To Feed®, SilageProven™, Vistive™, We Breed Better Beans™, YieldGard®, YieldGard VT and Design™, YieldGard VT Rootworm/RR2™, YieldGard VT Triple™ and YieldMaker™ are trademarks of Monsanto Technology LLC.
