**TEST COMMENTS:** In the spring, Judson used a strip-till bar in the standing corn stubble to provide a clean tilled 10" strip ahead of the Twin row 8" planter. The tilled zone must have helped boost yields since the plot yields rivaled the surrounding field with an early May no-till planting. Harvested seed size ranged from 2800-3800 seeds/lb. Excellent seed coat quality. Lat: N40.58793, Long: W88.82481
