TEST COMMENTS: Soybean plants were robust and rangy. Plant heights ranged from 30-60". Some varieties still had a few leaf petioles attached, green or otherwise. Many varieties displayed some degree of lodging. Waterhemp was slightly present. Seed size ranged from medium to large, but all seemed of good quality.

† See last page for abbreviation descriptions. Results in bold are significantly above test average by LSD (0.10). ns = column values not significantly different.
