Yield & Income Factors: Base Moisture = 15.0% Shrink = 1.3 Drying = \$0.030 Prices: GMO = \$3.75; non-GMO = \$3.75

Test Comments: *This was a new location this year and it is a great site. Planting conditions were ideal as well as most of the growing season. Plot looked nice and uniform all year long. Stalk quality was still great and most ears were still pointing upward. There was very little disease that could be noted at harvest. Much like some of the surrounding areas, farmers in this area could be looking at a record yield year.*

† See last page for abbreviation descriptions. Dark colored row identifies the check product found in early- and full-season tests. **Bold** yields are significantly above test average by LSD(0.10). **Italicized** brands exceed the grain moisture limit for this test. **ns** = column values not significantly different
