TEST COMMENTS:

Mother Nature! This location was planted in somewhat dry soil conditions and received a good rain within hours of planting. The plot had nice uniform emergence and was excellent looking throughout the growing season. Much like other places, the hot humid summer made conditions perfect for disease. Al said to me, "if you asked me before August, I would have said it was going to be my best crop yet." Well, mid-August a large pop-up storm with strong straight-line winds came through this area and put a lot of fields flat on the ground as seen in the lodging scores.
