TEST COMMENTS:

The location was planted in nice soil conditions. Emergence was nice and uniform throughout the plot. The area was dry at times during the growing season but received timely rains. A very small amount of GLS and Tar Spot was identified in a few small areas of the plot. The location was in good health all season long leading to some very strong yields. I would also like to say thank you to Jim Cullison for his 22 years of support for the FIRST program. Enjoy your retirement!
